

## Practice Area | Robotics

**Direct Recruiters specializes in recruiting, staffing, search services, placement, and consulting solutions for the Robotics Industry. We deliver qualified job candidates quickly and professionally.**

Robotics has been a component in manufacturing for over 50 years and is pivotal to industrial automation and life sciences. Over the past few years, our Robotics search team has seen the robotics industry evolve dramatically due to the advancements in safety systems, end effectors, and sensors. Today, robotics is rapidly bringing new applications to Factory Automation including processing, machine tending, and material handling. These new robotic applications will help manufacturers to improve competitiveness, business response times, optimize throughput, and allow companies to be flexible in satisfying customer demands.

As Recruiters in Robotics, we understand that now more than ever, your company will require professionals with special talents and proven experience. DRI is able to quickly identify, recruit, and secure key Robotics candidates who have the knowledge needed for your company to compete and thrive in this unique and growing industry. The DRI team is comprised of Senior Recruiters and Research Associates who have a thorough understanding of the Robotics industry, current job market and how to fill open positions. The synergy created enables us to impact companies and enhance careers of Robotics professionals in these positions, at all levels:

- Senior Level Executives
- Management
- Engineering
- Sales
- Marketing
